

To whom it my concern,

I'm a over the road truck driver and love the service I get from my "X-M"radio. One of the things I like is the music chanel's are now commershal free and have no aneing DISC-JOCKIES and stupid trivia or advertisements that I don't care about.

Another thing that I like is when i'm going to travel threw A large city I can find out what is going on as far as road work,traffic jams,adverse weather fifty or a hundred miles away.Far before regular radio stations,thus giving me a chance to adjust my route or stop for a break before I get into heavy traffic.

This serice is far supperior to other radio stations ,witch make you listen to ten minutes of adds and other stupid stuuf I don't care any thing about just so I can hear what I want. traffic,weather,music,news NASCAR -I pay for it so I can listen to what I want when I want !

Thank-you Gerald Reese Oshkosh Wisc.
